

<b>For</b>	Pre-start, start-up, existing and high growth business owners
<b>Who are dissatisfied with....</b>	The current progress and results in managing and marketing their business
<b>Our Product Is...</b>	A small business support club
<b>That provides</b>	Helps, guidance and support to entrepreneurs, self-employed individuals and business owners who wish to improve their marketing and grow their business.
<b>And unlike...</b>	Most networking clubs, social networking sites & business support organisations
<b>We...</b>	Help members to identify key issues, challenges and obstacles which are holding them back and preventing them from achieving their goals and objectives. We help to set new specific goals and to create (and/or implement) a practical plan of action, then repeat the process.
<b>Our take on life &amp; business</b>	It's your life. Your business. You make the decisions. You decide how much effort you will put in to achieve what you want. We endeavour to help you, however we can lead a horse to water, but we can't make it drink. In short, you cannot fail to grow unless you quit.
